The Problem

Windows 10 Support is Ending

- Microsoft will stop supporting Windows 10 on October 14, 2025
- Millions of functional computers may be discarded unnecessarily
- This creates environmental waste and forces unnecessary spending

The Solution

Linux: Your Computer's New Beginning

- If your computer was bought after 2010, it can likely run Linux
- Free, secure, and actively maintained operating systems
- Keep using your hardware for years to come

Why Make the Switch?

5 Compelling Reasons

- Save Money – No new hardware or licensing costs
- Protect Privacy – No ads, spyware, or tracking
- Help the Planet – 75–85% of computer emissions come from manufacturing
- Get Support – Active community and professional help available
- Stay in Control – Full ownership of your computing experience

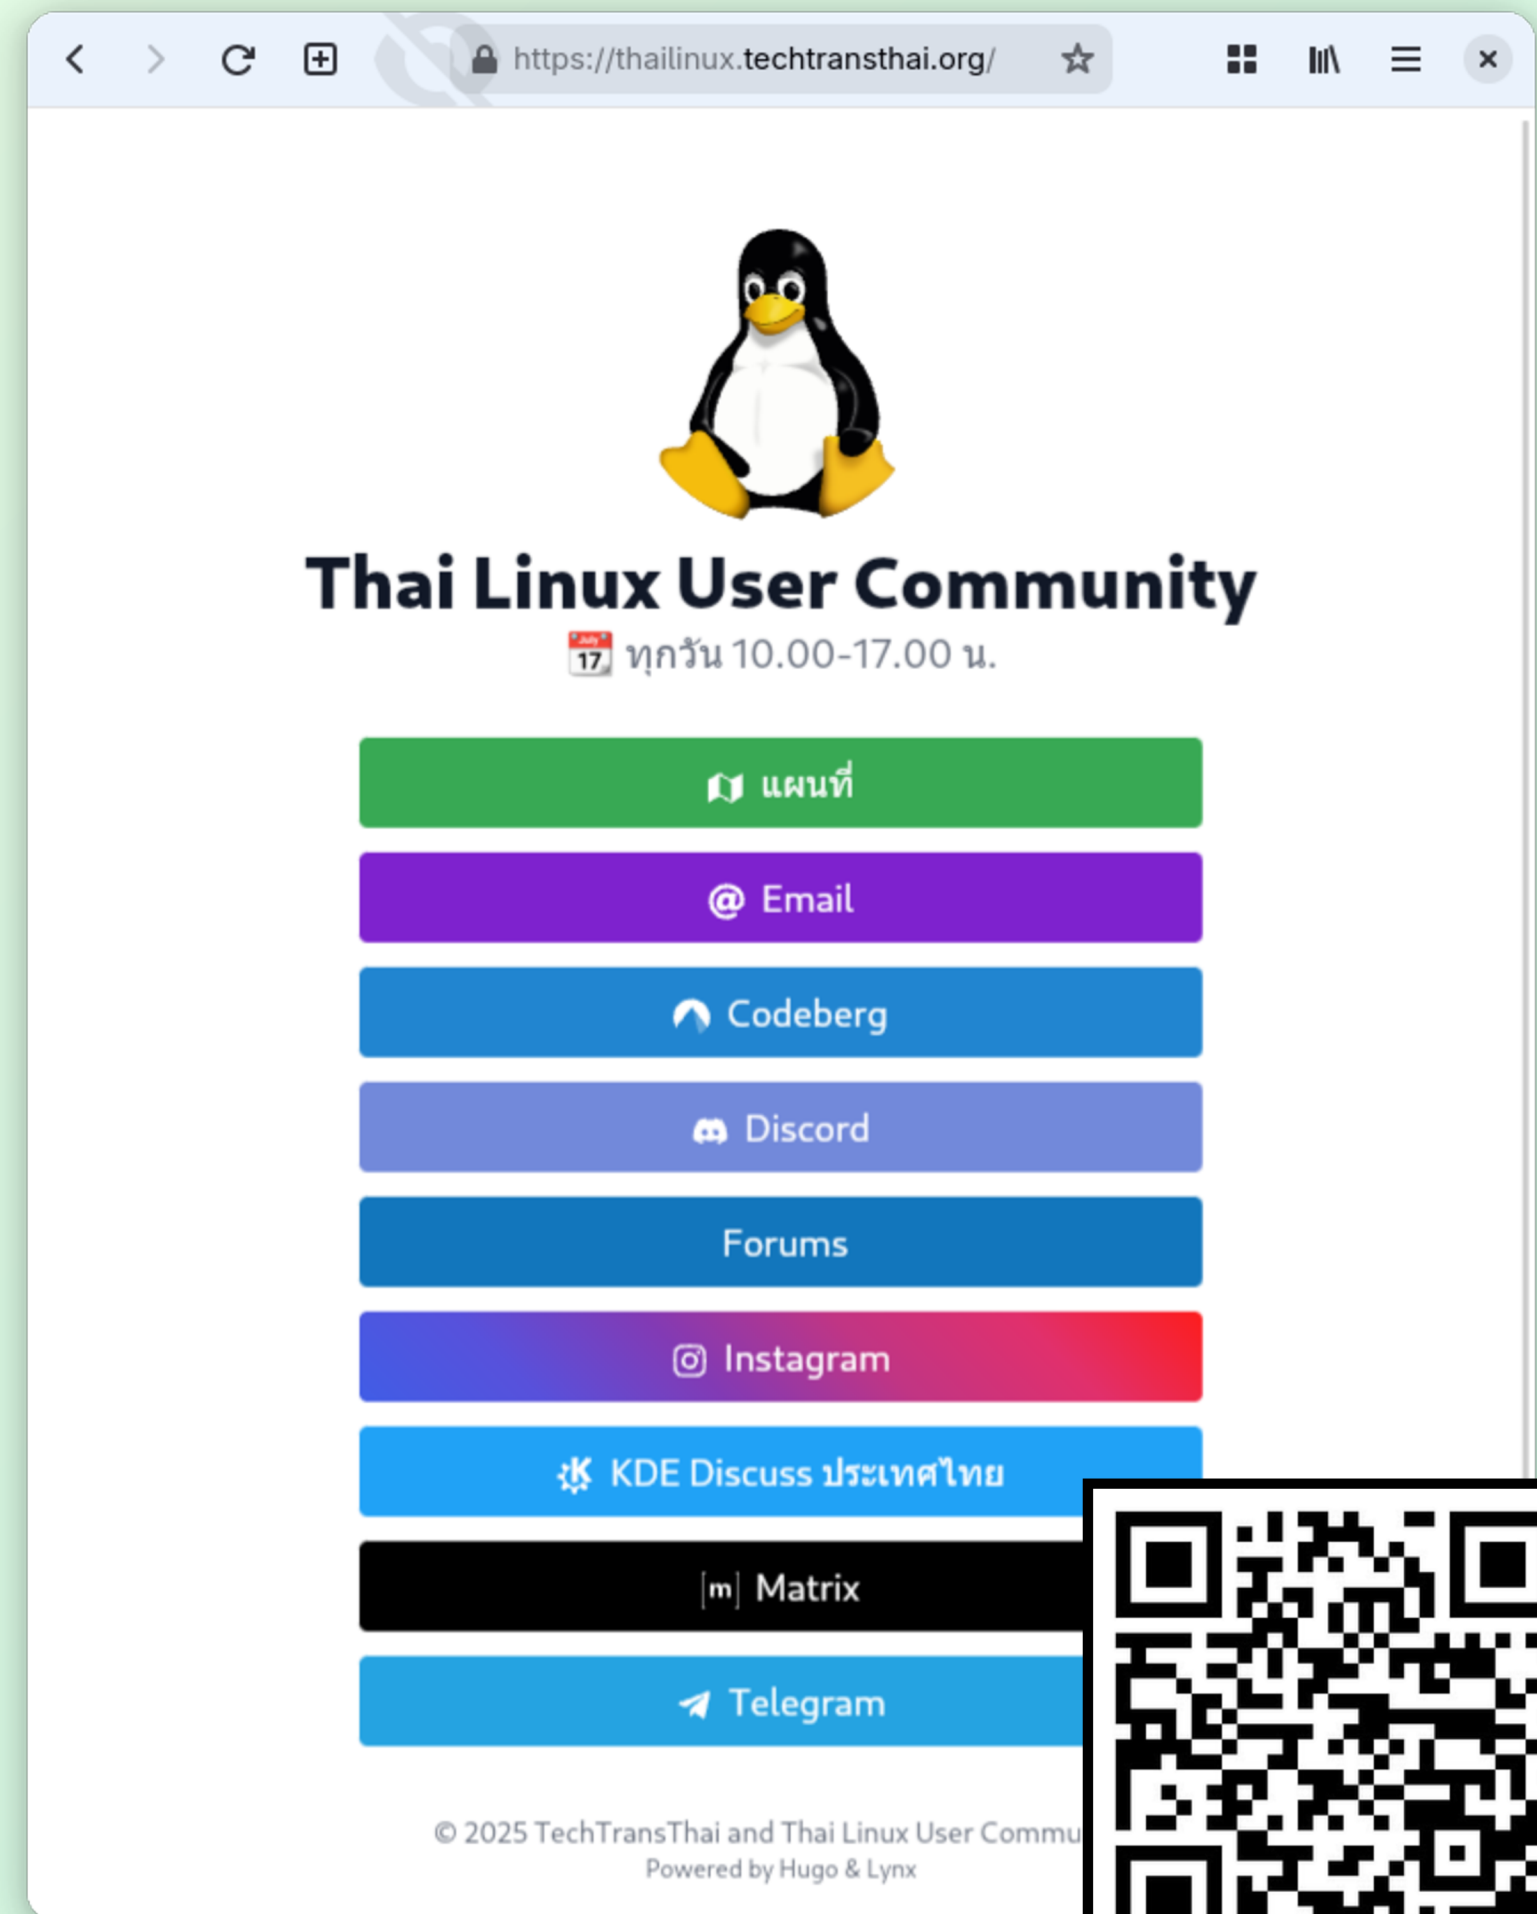

Helpful Resources

Places to get help & support

- Chat rooms on Discord, Matrix and Telegram
- Web boards such as Thai Linux Forums and KDE Discuss
- In-person help also available at JOJO SOBA
